

BA-1909
GLEN ARM SCHOOL
Glen Arm
Private

circa 1900

The Glen Arm School is of local significance as it served as the two room school house for the Glen Arm area from approximately 1900 to 1935 when it was sold to be a private residence. It also serves as an interesting example of vernacular architecture.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Glen Arm School is located on the north side of Glen Arm Road, and served the Glen Arm area as a school from c.1900 to c.1935.

The building is an early 20th century, 1 1/2 story tall, frame structure, covered in rounded overlapping clapboard siding, with a stone foundation. There are two central chimneys projecting from the hipped roof that is covered with modern asphalt shingles--there is also a modern chimney added to the east facade, c.1978. The building also features hipped roof dormer windows and hipped roof one bay porches.

The south facade features an eight bay exterior. From the west end of this facade, bays two and seven are entrance ways, (with modern doors), sheltered by one bay hipped roof porches supported by two rectangular posts. Flanking each entrance way bay are single windows of three over one double hung sash (these windows occur in bays one, five, six, and eight). The center two bays are two, paired windows consisting of four panes each, (bays four and five). Symmetrically placed over each porch are two hipped roof dormers--also sided on front and side with clapboard and featuring the three over one double hung sash windows.

The west facade featured a two bay exterior of three over one double hung sash windows. The stone foundation is also visible here.

The north facade features a six bay exterior. From the west end, bays two and five are rectangular, hipped roof projections and feature a six pane window on the north sides. The east side of bay two features another six pane window and the west side an entrance bay with a six step stairway leading up to it, while the west side of bay five features a six pane window and the east side an entrance bay with a similar stairway. Bays three and four are windows that consist of four panes each. The outer bays, one and six, are three over one double hung sash windows. On the second story are five dormers, the outer four are identical, hipped roof, and front and side covered with clapboard and featuring a single three over one double hung sash window each. In the center between bays two and five, is a double dormer with two three over one double hung sash window sharing the same hipped roof. On the foundation level, beneath bays one and six are entrance bays with six steps leading down to them. Beneath bays three and four

CONTINUE ON SEPARATE SHEET IF NECESSARY

on the foundation level, are two windows of six panes of glass--the window beneath bay four has been filled with cement blocks. A modern screened in porch is being added to the east end of this facade, attached to bay five to the end of the house, c.1981.

The east side features a three bay exterior, the first bay from the north side is a three over one double hung sash window. Bays two and three are small narrow windows that flank a modern exterior chimney, (this south end of the east facade originally also contained a three over one double hung sash window), which was added c.1978.

BA-1909

Glen Arm 1 July 81

Dear Mark,

Wollon writes "I found the Goucher reports quite interesting and I note a wide difference in quality." I list a few of his and Haile's comments, which you may attach to the reports or not, as you see fit.

God's Grace -- Cooke
by far the best -- excellent plan
title search shd. go further back

Remembrance -- Cooke
→ land grant 1773, NOT 1723. Shows in copy of deed attached.
chain of title erroneous. Haile and Hyde owned Dimmit's Delight.
Only Jenkins and George (m. Ellen Jenkins) owned the property
through Wm. Armour Jenkins who tore down the homestead in 1905
and built Remembrance.

Dawson House -- Aiello
chain of title meaningless
milestone is ordinary turnpike milestone
poor plan ... erroneous interpretation ... basic construction
not correctly identified -- orig. details not identified

Hartley House (Welsh) -- Aiello
title meaningless
mill not attached to house
mislocated on map
not brick

Dovecote Farm -- Rowse
not located on Land of Promise, located on Gunpowder (or His
Lordship's) Manor. It is just on the line. Land once owned by
Wilson family who also owned or built Yoder Farm. Log part
may have been Wilson house.

Ambrose House -- Rowse
badly mislocated on map
plan good
shd. mention former blacksmith shop on prop.

Brinton Woods -- Rowse
small wing, hardly mentioned, has chance of being orig. portion
plan might have explained unusual length

Shanklin's Store -- Rowse
title shd. go back further than 1909
date of constr. not proven

Denisch House -- Ellicott
pretty fair job of hard house to do
no record of Mennonites as early as 1830
formerly Wilson land. On Land of Promise

Wilson Church -- Ellicott

church does not face Manor Rd.

originally grey, not white. All shutter hardware new. Doorway left of chancel not new (was door for coffins to cem.)

basement dug to install furnace after day of wood stoves

chain of title is for rental house, not church

Glen Arm Station -- MacNeish

automatic signal was not at station, but at Watchbox Hill blind crossing $\frac{1}{2}$ mile north

plan OK

[Glen Arm School -- MacNeish

OK. Inside plan of schoolhouse wd. have been interesting.

Some of these errors are common ones and quoted by owners. Understandable for student to take on faith. Also understandable why titles often confused by those who don't know names and lands of area.

Am sure I cd. not have done better, or in some cases as well. Wollon & Haile are both sticklers. Anyway, thanks again. Best,

Guliv
